About BG Gold

BG Gold owns the Whale Cove Gold Project (formerly the Pistol Bay Project), a 781 km² contiguous claim area near the hamlet of Whale Cove in Nunavut, Canada. Vickers, the principal target on the Project, has a historical inferred mineral resource estimate of 1.58 Moz of gold contained within 22,370,000 tonnes at 2.20 g/t Au, which includes high-grade intersections (e.g. 101m @ 12.3 g/t Au and 163m @ 5.6 g/t Au) that warrant follow-up drilling. Vickers is roughly 80 km away from Agnico Eagle’s Meliadine mine, which has a 3.77 Moz mineral reserve and produced 364 Koz in 2023. A further 13 prospective targets have been identified on the Whale Cove Gold Project.
